

July 16, 2013

Mayor Filner:

The Board of the League of Conservation Voters San Diego (LCVSD), hereby withdraws its endorsement and requests you resign from office.

As a champion for environmental protection, you received the full support of LCVSD during your campaign for mayor of San Diego. However, in light of the very serious allegations that have come to light and your admissions regarding the same, we believe you are no longer in a position to effectively govern the City. One cannot successfully advance a positive environmental agenda, while at the same time creating a hostile work environment.

The Board does not reach this conclusion lightly, as we share many of the same goals in advocating for the environment. LCVSD simply cannot in good conscience continue to offer you its support.

Please consider the best interest of your constituents and step down before the public trust is further eroded.

Sincerely,

A handwritten signature in black ink, appearing to read "L B B". The letters are stylized and cursive.

Livia Borak
President, LCVSD
